Are you thinking about hosting an event for **Earth Science Week?**

13–19 October 2024

To find out how Geoscience Australia is celebrating Earth Science Week visit ga.gov.au/esw

**How can you,
your friends,
your team,
your family
get involved?**

Anyone can celebrate Earth Science Week!

Celebrating Earth Science Week can be as simple as showing your support and interest on social media, or as big as hosting your own Earth Science Week event.

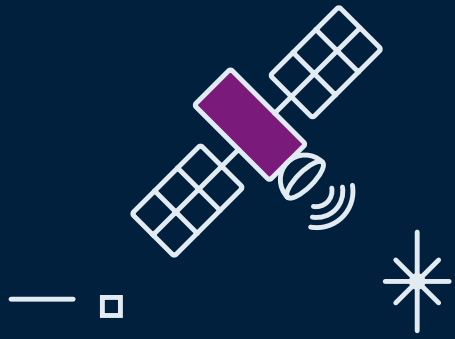

An Earth Science Week event can be big or small. It could be a morning tea in the workplace, an activity afternoon in the classroom, or an Earth science trivia night amongst friends.

You could satisfy your sweet tooth and do some Earth science baking at home with some of our edible Earth science recipes or test your Earth science knowledge in the workplace, classroom or at home with our Earth Science Week quiz and find-a-word activity!

However you decide to celebrate, Geoscience Australia has a range of helpful event host resources in our Earth Science Week digital supporter tool kit.

[Download our web and social media banners and tiles](#)

Download our range of web and social media banners and tiles to promote your Earth Science Week event and show your support for Earth Science Week on your social media channels and via your own website.

Don't forget to tag **Geoscience Australia in your social posts!**

However you decide to celebrate, Geoscience Australia has a range of helpful event host resources in our Earth Science Week digital supporter tool kit. [Check them out here](#)

Event key messages

The following key messages can assist you when communicating to others about your Earth Science Week event.

Earth Science Week, held 13 to 19 October 2024, is a global movement that aims to increase the understanding and awareness of the importance of Earth science and its value to our everyday lives.

Earth science is everywhere, it influences what happens when we switch on a light, turn on the tap and even order a pizza delivery.

It covers all fields of STEM related to Earth and enables a deeper understanding of our Earth's potential, unlocking a better future for all Australians!

Earth Science Week offers an exciting opportunity to deepen our understanding of the world around us and to see how Earth science really is everywhere!
