**Jackson MJ** & Southgate PN. 2000. Evolution of three unconformity-bounded sandy carbonate successions in the McArthur River region of northern Australia—the Lawn, Wide and Doom supersequences in a proximal part of the Isa Superbasin. *Australian Journal of Earth Sciences*; 47(3): 625–635.

**Kennard JM**, Edwards DS, Ruble TE, et al. 2000. Evidence for a Permian petroleum system in the Timor Sea region, north-western Australia. *AAPG Bulletin*; 84(9): 1447.

**Krassay AA**, Bradshaw BE, Domagala J & Jackson MJ. 2000. Siliciclastic shoreline to growth-faulted, turbiditic sub-basin: The Proterozoic River Supersequence of the upper McNamara Group on the Lawn Hill Platform, northern Australia. *Australian Journal of Earth Sciences*; 47(3): 533–562.

**Krassay AA**, Domagala J, Bradshaw BE & Southgate PN. 2000. Lowstand ramps, fans and deep-water Palaeoproterozoic and Mesoproterozoic facies of the Lawn Hill Platform: The Term, Lawn, Wide and Doom supersequences of the Isa Superbasin, northern Australia. *Australian Journal of Earth Sciences*; 47(3): 563–597.

**Lawrie KC**, Munday TJ, Dent DL, et al. 2000. A geological systems approach to understanding the processes involved in land and water salinisation: The Gilmore project area, central-west New South Wales. *AGSO Research Newsletter*, May; 32: 13–15, 26–32.

Lin CC, Liu LG, **Mernagh TP** & Irifune T. 2000. Raman spectroscopic study of hydroxyl-clinohumite at various pressures and temperatures. *Physics & Chemistry of Minerals*; 27(5): 320–331.

**Maidment DW**, Gibson GM & Giddings JW. 2000. Taking geology beneath cover at Broken Hill: Implications of structurally controlled magnetic anomalies for interpretation and mineral exploration. *Geophysics Down Under*; 26 (Summer): 11–13.

**McCue K**. 1999. Seismic hazard mapping in Australia, the Southwest Pacific and Southeast Asia. *Annali Di Geofisica*; 42(6): 1191–1198.

**Moore AMG**, Stagg HMJ & Norvick MS. 2000. Deep-water Otway Basin: A new assessment of the tectonics

and hydrocarbon prospectivity. *APPEA Journal*; 40(1): 66–84.

Nees S, Armand L, De Deckker P, Labracherie M & **Passlow V**. 2000. [erratum]. A diatom and benthic foraminiferal record from the South Tasman Rise (southeastern Indian Ocean): Implications for palaeoceanographic changes for the last 200 000 years. *Marine Micropaleontology*; 38(3–4): 311–312.

Newman J & **Boreham CJ**. 2000. VRF (sub TM) for really reliable reflectance data: Recent examples of this revolutionary new technique. *APPEA Journal*; 40(1): 776.

**O'Brien GW**, Lawrence G, Williams A, Webster M, Wilson D & Burns S. 2000. Using integrated remote sensing technologies to evaluate and characterise hydrocarbon migration and charge characteristics on the Yampi Shelf, north-western Australia: A methodological study. *APPEA Journal*; 40(1): 230–255.

Opdyke ND, Roberts J, **Claoue-Long J**, Irving E & Jones PJ. 2000. Base of the Kiaman: Its definition and global stratigraphic significance. *Geological Society of America Bulletin*; 112(9): 1315–1341.

O'Sullivan PB, **Gibson DL**, Kohn BP, Pillans B & Pain CF. 2000. Long-term landscape evolution of the Northparkes region of the Lachlan Fold Belt, Australia: Constraints from fission track and paleomagnetic data. *Journal of Geology*; 108(1): 1–16.

**Page RW**, Jackson MJ & Krassay AA. 2000. Constraining sequence stratigraphy in North Australian basins: SHRIMP U-Pb zircon geochronology between Mt Isa and McArthur River. *Australian Journal of Earth Sciences*; 47(3): 431–459.

Preston JC & **Edwards DS**. 2000. The petroleum geochemistry of oils and source-rocks from the northern Bonaparte Basin, offshore northern Australia. *APPEA Journal*; 40(1): 257–281.

Preston JC, Newell NA & **Edwards DS**. 2000. The origin and alteration of hydrocarbons in the Northern Bonaparte Basin, offshore Northern Australia. *AAPG Bulletin*; 84(9): 1478.

**Radlinski AP**. 2000. Small-angle neutron scattering—a new technique to detect generated source rocks. *AAPG Bulletin*; 84(9): 1479.

**Radlinski AP**, Boreham CJ, Lindner P, et al. 2000. Small-angle neutron scattering signature of oil generation in artificially and naturally matured hydrocarbon source rocks. *Organic Geochemistry*; 31(1): 1–14.

**Rigg A** & Bradshaw J. 2000. The GEODISC program: Research into geological sequestration of CO<sub>2</sub> in Australia. *AAPG Bulletin*; 84(9): 1482.

Romine K, Pryer L, Stuart-Smith P, Thomas P, Wakefield L & **Blevin JE**. 2000. Impact of basement architecture on the evolution of the petroleum systems of the Canning Basin, Western Australia. *AAPG Bulletin*; 84(9): 1482.

**Scott DL**, Rawlings DJ, Page RW, et al. 2000. Basement framework and geodynamic evolution of the Palaeoproterozoic superbasins of north-central Australia: An integrated review of geochemical, geochronological and geophysical data. *Australian Journal of Earth Sciences*; 47(3): 341–380.

**Southgate PN**. 2000. Carpentaria–Mt Isa Belt: Basement framework, chronostratigraphy and geodynamic evolution of Proterozoic successions. *Australian Journal of Earth Sciences*; 47(3): 657.

**Southgate PN**. 2000. Carpentaria–Mt Isa Zinc Belt: Basement framework, chronostratigraphy and geodynamic evolution of Proterozoic successions. *Australian Journal of Earth Sciences*; 47(3): 337–340.

**Southgate PN**, Bradshaw BE, Domagala J, et al. 2000. Chronostratigraphic basin framework for Palaeoproterozoic rocks (1730–1575 Ma) in northern Australia and implications for base-metal mineralisation. *Australian Journal of Earth Sciences*; 47(3): 461–483.

**Southgate PN**, Scott DL, Sami TT, et al. 2000. Basin shape and sediment architecture in the Gun Super-sequence: A strike-slip model for Pb-Zn-Ag ore genesis at Mt Isa. *Australian Journal of Earth Sciences*; 47(3): 509–531.

**Stagg HMJ**, Alcock M, Borissova I, Bonaparte AMG, Symonds PA & van de Beuque S. 2000. Tectonic and basin elements of the Lord Howe Rise: A regional interpretation. *APPEA Journal*; 40(1): 778.

**AGSO reference librarian Bev Allen compiled this list of papers and books. For information about their availability phone Bev on +61 2 6249 9200 or e-mail bev.allen@agso.gov.au. For information about article or book contents contact the AGSO author (name in bold) by e-mailing ...@agso.gov.au or phoning reception on +61 2 6249 9111.**

**Stephenson AE**. 2000. Under-explored basins of Australia: An inventory. *AAPG Bulletin*; 84(9): 1497.

**Totterdell JM**, Blevin JE, Struckmeyer HIM, Bradshaw BE, Colwell JB & Kennard JM. 2000. A new sequence framework for the Great Australian Bight: Starting with a clean slate. *APPEA Journal*; 40(1): 95–116.

Veeh HH, McCorkle DC & **Heggie DT**. 2000. Glacial/ interglacial variations of sedimentation on the West Australian continental margin: Constraints from excess (super 230) Th. *Marine Geology*; 166(1–4): 11–30.

Wilkes H, **Boreham CJ**, Harms G, Zengler K & Rabus R. 2000. Anaerobic degradation and carbon isotopic fractionation of alkylbenzenes in crude oil by sulphate-reducing bacteria. *Organic Geochemistry*; 31(1):101–115.

## BOOKS & REPORTS

Bacon CA, Calver CR, **Boreham CJ**, et al. 2000. The petroleum potential of onshore Tasmania; a review. Hobart: Tasmania Department of Mines and Mineral Resources, Geological Survey bulletin 71.

Brancolini G, **Harris P**, Armand L, et al. 2000. Post-cruise report AGSO Survey 217: Joint Italian/Australian marine geoscience expedition aboard the RV Tangaroa to the George Vth Land region of East Antarctica during February–March, 2000. Canberra: AGSO, record 2000/38.

**Budd AR**, Hazell M, Sedgmen A, Sedgmen L, Wyborn LAI & Ryburn RJ. 2000. OZCHEM dataset release 1 documentation: AGSO's national whole-rock geochemistry database. Canberra: AGSO record, 2000/12.

**Collins CDN** & Semenova TO. 2000. Seismic tomography of Tasmania: Data processing report. Canberra: AGSO, record 2000/14.

**Ewers GR**. 2000. Australia's mines and major mineral deposits, scale 1:10 000 000. Edn 2. Canberra: AGSO.

**Ewers GR**. 2000. Australia's mines and major mineral deposits, scale 1:5 000 000. Edn 2. Canberra: AGSO.

**Ewers GR**, Ryburn RJ, Hazell M, Sedgmen A, Bastrakov E & Black J. 2000. OZMIN documentation: National mineral deposits dataset, version 3. Canberra: AGSO, record 2000/18.

**Goleby BR**, Bell B, Korsch RJ, et al. 2000. Crustal structure and fluid flow in the Eastern Goldfields, Western Australia: Results from the Australian Geodynamics Cooperative Research Centre's (AGCRC) Yilgarn deep seismic reflection survey and fluid flow modelling projects. Canberra: AGSO, record 2000/34.

Hickman AH, Smithies RH & **Huston DL**. 2000. Archaean geology of the West Pilbara granite–greenstone terrane and Mallina Basin, Western Australia: A field guide. Perth: Geological Survey of Western Australia, record 2000/9.

**Hill PJ**, Rollet N, Rowland D, Calver CR & Bathgate J. 2000. Seafloor mapping of the south-east region and adjacent waters—AUSTREA-1 cruise report: Lord Howe Island, south-east Australian margin and central Great Australian Bight. Canberra: AGSO, record 2000/6.

**Hoatson DM** & Blake DH. 2000. Geology and economic potential of the Palaeoproterozoic layered mafic-ultramafic intrusions in the East Kimberley, Western Australia. Canberra: AGSO, bulletin 246.

**Hoatson D**, Blake D, Wygralak A, et al. 2000. Kakadu & Nitmiluk National Parks, Northern Territory: A guide to the rocks, landforms, plants, animals, Aboriginal culture and human impact. Canberra: AGSO.

**Holdway DA**, Radlinski AP, Exon NF, Auzende J-M & van de Beuque S. 2000. Continuous multi-spectral fluorescence and absorption spectroscopy for petroleum hydrocarbon detection in near-surface ocean waters: ZoNeCo5 survey, Fairway Basin area, Lord Howe Rise. Canberra: AGSO, record 2000/35.

**Klootwijk CE**. 2000. Australian palaeomagnetism, rockmagnetism, and environmental magnetism 2000: Abstracts. Canberra: AGSO, record 2000/36.

**Lyons P**, Raymond OL, Duggan MB & Facer RA. 2000. Forbes 1:250 000 geological sheet: Explanatory notes & map. Edn 2. Canberra: AGSO, record 2000/20.

**Milligan PR**, Direen NG & Shaw RD. 2000. Geophysical atlas of the Curnamona Province 1:2 million scale. Canberra: AGSO.

**Ollier C** & Pain CF. 2000. The origin of mountains. London: Routledge.

**Peljo M**. 2000. Broken Hill Exploration Initiative: Abstracts of papers presented at the May 2000 conference in Broken Hill. Canberra: AGSO, record 2000/10.

**Richardson LM**. 2000. Errors in digital elevation models derived from airborne geophysical data. Canberra: AGSO, record 2000/37.

**Richardson LM**. 2000. Index of airborne geophysical surveys. Edn 4. Canberra: AGSO, record 2000/7.

**Ryburn RJ**, Ross SI & Wijatkowska Asfaw BS. 2000. Guide to the AGSO catalog. Canberra: AGSO, record 2000/13.

**Whitaker AJ**, Blake DH & Stewart AJ. 2000. Geology and geophysics of the Ballimore and Sandalwood 1:100 000 sheet areas (3145 and 3144), Western Australia. Canberra: AGSO, record 2000/2.

## Publications involving AGSO authors

May–November 2000

### ABSTRACTS & PROCEEDINGS

**Bastrakov EN**, Cassidy KF & Shvarov YV. 2000. Gold transport at Archaean lode gold deposits: Gold solubility along the rock-buffered pathways. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 44.

**Bell B**, Goleby BR, Fomin T, Owen AJ & Korsch RJ. 2000. Detailed gravity as an aid for constraining crustal structures interpreted from deep seismic reflection profiling within the Eastern Goldfields, Western Australia. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 25.

**Brown BJ**, Muller RD, **Struckmeyer HIM**, Symonds PA & Sayers J. 2000. Revisiting the tectonic evolution of the Australian southern margin. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 46.

**Brown BJ**, Muller RD, **Struckmeyer HIM**, Symonds PA & Sayers J. 2000. Revisiting the tectonic evolution of the Australian southern margin. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 46.

**Bernadel G**, Alcock MB, Symonds PA, Petkovic P & Coffin MF. 2000. Recent swath mapping of the southern Macquarie Ridge complex: Seafloor characteristics and tectonic development. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 32.

**Black LP**, Kamo SL, Williams IS, et al. 2000. The quest for a high-quality zircon standard for microbeam Pb-U-Th geochronology. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 43.

**Blewett RS**. 2000. Horizontal vs vertical tectonics and the dome-&-basin

geometry of the Archaean Pilbara Craton, Western Australia: Implications for mineral deposits. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 44.

**Borissova I**, Moore AMG, Sayers J, Coffin MF, Symonds PA & Teliatnikov I. 2000. Tectonic provinces of the Kerguelen Plateau: Integration of seismic data and ODP drilling. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 46.

**Brown BJ**, Muller RD, **Struckmeyer HIM**, Symonds PA & Sayers J. 2000. Revisiting the tectonic evolution of the Australian southern margin. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 46.

**Collins C** & Drummond B. 2000. Crustal thickness patterns in the Australian continent. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 91.

**Cross AJ**, Korsch RJ, Raymond OL, Lyons P & Mills AW. 2000. An interpretation of the eastern Lachlan region using the PREDICT geological information system. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 110.

**De Souza Kovacs N**, Moore CL, **Lawrie KC**, Gibson DL & Munday TJ. 2000. Mapping three-dimensional regolith architecture in the Tertiary Bland Creek palaeo-valley, Lachlan Fold Belt, central-west New South Wales, Australia. 31st International Geological Congress, Rio De Janeiro, Brazil, Aug 6–17; abstracts volume on CD-ROM.

**De Souza Kovacs N**, Moore CL & **Wilford J**. 2000. Distribution of gold and base metals in regolith materials at Mandamah prospect, central western New South Wales. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 125.

**Direen NG**, Archibald NJ, Hill EJ, et al. 2000. Annelical geometry: A 3-D geological and geophysical appraisal of major structures in the eastern Lachlan Orogen using multi-scale edge analysis. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 132.

**Direen NG**, Archibald NJ, Mackey TE, et al. 2000. The turn of the worms: Mineral systems implications of crustal structures in the eastern Lachlan Orogen derived from multi-scale edge analysis. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 133.

**Exon NF**, Kennett JP & Malone MJ. 2000. Evolutionary and climatic consequences of opening the Tasmanian seaway: Results from ocean drilling. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 146.

**Exon NF**, Kennett JP & Malone MJ. 2000. Evolutionary and climatic consequences of opening the Tasmanian seaway: Results from ocean drilling. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 146.

**Feary DA**, Hine AC, Malone MJ, et al. 2000. Proceedings of the Ocean Drilling Program October 8–December 7, 1998: Initial reports;

Eucla Platform, Great Australian Bight; Cenozoic cool water carbonates; Leg 182 of the cruises of the drilling vessel JOIDES Resolution; Wellington (New Zealand) to Fremantle (Australia); sites 1126–1134; College Station (TX): Texas A&M University, Ocean Drilling Program.

**Finlayson** DM, Wesson V, Gibson G & Kiddle T. 2000. Monitoring plate margin earthquake and volcanic events: A major upgrade of the Philippines seismic recording network. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 150.

Frick LR, Lambert DD, **Hoatson** DM & McBride JS. 2000. Re-Os isotope systematics of the Radio Hill Ni-Cu-PGE complex, West Pilbara Craton, Western Australia. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 162.

**Gibson** DL, O’Sullivan PB & Chan RA. 2000. Middle Cretaceous denudation in the southeast highlands of Australia: Possible reconciliation of fission track and geomorphological results. Fission Track 2000—9th International Conference on Fission Track Dating and Thermochronology, Lorne (Vic), Feb 6–11. Noble WP, O’Sullivan PB & Brown RW, eds. Sydney: Geological Society of Australia; Abstracts 58: 113–115.

**Gibson** GM & Sims JP. 2000. Tectonothermal evolution of Willyama Supergroup and timing of base-metal mineralisation, Broken Hill, Australia. 31st International Geological Congress, Rio De Janeiro, Brazil, Aug 6–17; abstracts volume on CD-ROM.

Glen RA, **Korsch** RJ, Jones LEA & Johnstone DW. 2000. Seismic evidence for a major arc-back arc collision in the Lachlan Orogen. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 177.

**Goleby** BR, Bell B, Korsch RJ, et al. 2000. Towards the third dimension in the Eastern Goldfields, WA from combined seismic reflection and potential field studies. Searching for a

sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 179.

**Goleby** BR, Drummond BJ, Korsch RJ, Fomin T, Owen AJ & Bell B. 2000. Crustal structure—thrust stacks and gold pathways within the Archaean granite-greenstones of the Eastern Goldfields, Western Australia: As revealed by deep seismic reflection profiling. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 180.

**Goncharov** A, Kennard J, Colwell J, et al. 2000. Towards improved understanding of the deep structure of the Australian north-west margin from combined refraction/reflection seismic studies. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 181.

**Gunn** P. 2000. Aeromagnetic evidence of possible palaeohotspot activity in Australia. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 196.

**Hill** PJ, Rollet N, Bernadel G, Calver CR & Alcock MB. 2000. Swath-mapping Australia’s southeast continental margin for geoscience and environmental management: AUSTREA survey 2000. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 226.

**Huston** DL, Keillor B, Marshall AE, Standing J, Blewett RS & Mernagh TP. 2000. Archaean epithermal deposits in the Pilbara Craton, Western Australia. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 242.

**Jagodzinski** EA. 2000. The Turondale Formation, Hill End Trough, NSW: Facies interpretation and palaeogeography. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 249.

**Jagodzinski** EA. 2000. The Turondale Formation, Hill End Trough, NSW: Facies interpretation and palaeogeography. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 249.

**Jagodzinski** EA & Cas RAF. 2000. Crystal-rich volcanoclastic megaturbidites of the Turondale and Merriens Formations, Hill End Trough, NSW: Arguments for pyroclastic flow disintegration upon entering the sea. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 250.

**Jaireth** S, Lambert I, Miezitis Y & Jaques L. 2000. Mineral potential of Australia. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 251.

Kaiko A & **O’Brien** PE. 2000. Lithostratigraphy of continental shelf, trough-mouth fan and sediment drift deposits, ODP Leg 188, Prydz Bay, East Antarctica. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 265.

**Klootwijk** C. 2000. Late Palaeozoic evolution of the southern New England Orogen: Palaeomagnetic constraints from the Rocky Creek Block of the Tamworth Belt. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 280.

**Korsch** RJ, Lawrie KC, Johnstone DW & Jones LEA. 2000. A deep seismic reflection profile across the Gilmore Fault, eastern Lachlan Orogen. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 281.

Kryc KA, Lavelle M & **O’Brien** PE. 2000. Preliminary geochemical results from ODP Leg 188: Prydz Bay, Antarctica. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 286.

**Lambert** IB & McKay AD. 2000. Geological features and environmental issues for new uranium mines in Australia. 31st International Geological Congress, Rio De Janeiro, Brazil, Aug 6–17; abstracts volume on CD-ROM.

**Lawrie** KC, Hider N, Cousins S, Lyons P, Dobos V & McNamara G. 2000. Earth science mentor program: A joint initiative of the Geological Society of Australia and Science Educators Association of the Australian Capital Territory. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 293.

**Lawrie** KC, Munday TJ, Dent D, et al. 2000. Salt dynamics in a complex landscape: Taking a multi-disciplinary approach in central-west New South Wales. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 294.

**Lawrie** KC, Munday TJ, Gibson DL, et al. 2000. Mapping porphyry Au-Cu and epithermal Au mineral systems under complex regolith cover, Lachlan Fold Belt, New South Wales. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 295.

**Lewis** GB. 2000. AGSO’s teacher resources kits and training sessions. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 300.

Limtrakun P, Zaw K, Ryan CG, **Mernagh** TP, et al. 2000. Formation of the Denchai gem sapphires, northern Thailand: Mineral chemistry and fluid/melt characteristics. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 305.

**Lyons** P, Raymond OL & Duggan M. 2000. Fault controls on gold mineralisation in the Young Granodiorite. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 315.

**McCue** K & Sinadinovski C. 2000. Models of earthquake processes for seismic hazard assessment in Australia. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 321.

**Mernagh** TP & Bastrakov EN. 2000. The source of gold in the western Lachlan Fold Belt: Constraints from mass transfer modelling. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 344.

**O’Brien** PE & Cooper AK. 2000. Summary of initial results from ODP Leg 188: History of East Antarctic glaciation from drilling in Prydz Bay. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 366.

O’Sullivan PB, **Gibson** DL, Kohn BP, Pillans B & Pain CF. 2000. Constraining long-term landscape evolution using fission track and paleomagnetic data: An example from the Lachlan Fold Belt. Fission Track 2000—9th International Conference on Fission Track Dating and Thermochronology, Lorne (Vic), Feb 6–11. Noble WP, O’Sullivan PB & Brown RW, eds. Sydney: Geological Society of Australia; Abstracts 58: 247–249.

**Page** RW, Stevens BPJ & Gibson GM. 2000. New shrimp zircon results from Broken Hill: Towards robust stratigraphic and event timing. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 375.

Palliani RB & **Riding** JB. 2000. A palynological investigation of the Lower and lowermost Middle Jurassic strata (Sinemurian to Aalenian) from North Yorkshire, UK. Proceedings of the Yorkshire Geological Society; 53(1): 1–16.

**Raymond** OL. 2000. Depth-to-bedrock modelling using drilling and the ANUDEM topographic modelling program. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 408.

**Raymond** OL, Sherwin L, Lyons P & Scott M. 2000. The Jemalong Trough: An extension of Silurian–Devonian rifting in the eastern Lachlan Fold Belt. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 409.

**Riding** JB, Head MJ & Moorlock BSP. 2000. Reworked palynomorphs from the Red Crag and Norwich Crag formations (Early Pleistocene) of the Ludham Borehole, Norfolk. Proceedings of the Geologists Association; 111(2): 161–171.

**Rollet** N, Hill PJ, Exon NF, Butler A & Glenn K. 2000. Seabed mapping in the Great Australian Bight Marine Park: Preliminary results from the AUSTREA-1 cruise. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 425.

**Sayers** J, Symonds PA, Dieren NG & Bernadel G. 2000. Nature of the continent–ocean transition on the non-volcanic rifted margin of the central Great Australian Bight. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 438.

**Skirrow** RG, Ashley PM, Suzuki K & McNaughton NJ. 2000. Timing of Cu-Au(-Mo) and regional sodic-calcic alteration in the Olary-Broken Hill region: Molybdenite Re-Os and titanite U-Pb dating constraints. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 461.

**Stagg** HMJ, Alcock MB, Borissova I, Moore AMG, Symonds PA & Van de Beuque S. 2000. Structural elements of the Lord Howe Rise. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 476.

**Stagg** HMJ, Symonds PA, Exon NF, Auzende J-M, Dickens GR & Van de Beuque S. 2000. Potential gas hydrates in Australia’s marine zones. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 477.

Tan KP, Eggleton RA & **de Caritat** P. 2000. The morphology and chemistry of gold grains at Portia prospect, Curnamona, South Australia. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 491.

Van de Beuque S, Auzende J-M, Lafoy Y, **Exon** NF & Dickens G. 2000. Diapirism in the Fairway Basin, northeast Lord Howe Rise: Implications for basin formation and geological evolution. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 507.

Van de Beuque S, **Symonds** PA, Stagg HMJ, Auzende J-M & O’Brien GW. 2000. Northern Lord Howe Rise: Tectonic setting and possibilities for hydrocarbon indications. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 508.

Wilde AR, Layer P, **Mernagh** T & Foster J. 2000. The giant Muruntau gold deposit: Why is it so large? Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 539.

**Wilford** J, Lawrie KC & Dent D. 2000. GIS-based approach to mapping salt movement and storage using catchment analysis of terrain attributes, airborne gamma-ray spectrometry, geology and hydrology. Searching for a sustainable future—15th Australian Geological Convention, Sydney, Jul 3–7. Sydney: Geological Society of Australia; Abstracts 59: 540.

**Wilford** J. 2000. Thematic mapping and three-dimensional modelling of the regolith for mineral and environmental assessment. 31st International Geological Congress, Rio De Janeiro, Brazil, Aug 6–17; abstracts volume on CD-ROM.
